Experience

Video Editor Intern | Apprisers, Remote

August-2024 to October-2024

- Edited and produced video content for YouTube and social media platforms using Adobe Premiere Pro and DaVinci Resolve.
- Collaborated with team members to create engaging and high-quality content while meeting project deadlines.
- Assisted in content planning, video optimization, and post-production workflows.
- Developed skills in video editing, content management, teamwork, and communication.

Projects

Memory Forensics Automation Tool

- Analyzed memory dump files using Python and the Volatility Framework to investigate system activity and security events.
- Extracted forensic artifacts such as running processes, network connections, and system information.
- Developed a simple workflow for organizing and visualizing forensic analysis results.
- Applied digital forensics concepts to support incident investigation and analysis.

Soil Management and Prediction Mobile Bot

- Developed a Python-based system to analyze soil data and provide recommendations based on soil conditions and implemented data processing and classification logic to generate insights for agricultural decision-making.
- Improved data handling and reporting through automated analysis techniques.
- Gained experience in Python programming, data processing, and problem-solving through real-world data analysis.

Education

Bachelor of Technology in Computer Science and Engineering, NIIT University	2023 to 2027
--	---------------------

Relevant Modules: Python Programming, Computer Networks, Network Security, Cyber Security, Database Management Systems, Operating Systems

XII, Rishikul Vidyapeeth, Sonepat (CBSE)	2023
---	-------------

X, Rishikul Vidyapeeth, Sonepat (CBSE)	2021
---	-------------

Skills

Programming Languages: Python, JavaScript, HTML/CSS

Databases: MySQL, MongoDB

Cybersecurity: Network Security, Information Security, Memory Forensics, Threat Analysis

Networking: TCP/IP, DNS, HTTP/HTTPS

Tools /Platforms: Wireshark, Kali Linux, Git, GitHub, Visual Studio Code, Git, Docker

Frameworks: React, Node.js

Operating Systems: Linux, Windows

Libraries: Pandas, NumPy, Matplotlib

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Communication

Certification

-
- HackerRank Python (Basic) Certification, June 2026
 - Cisco Introduction to Cybersecurity, June 2026

Positions of Responsibility

Music Club Coordinator, NIIT University

Yash Kaushik

Sonepat, Haryana | yash.kaushik23@st.niituniversity.in | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

- Organized events and created platforms for students to showcase their musical talents.
- Led initiatives to increase club engagements and ensured regular performance opportunities.
